#	POD PARENT	POLLEN PARENT	
Beautiful Peaches, Pinks and Greens			Price / 3 seeds
1	4 Seasons	Piet's Pride	
			4 Seasons and Piets Pride are both well known for breeding excellent green throat Tipperary Peaches.
2	Pride & Joy	Piet's Pride	
			Pride & Joy ,also known as P24 is famous as a show winning Tipperary Peach. Surprised me last year with a slight green throat. Combined with the unsurpassed green of Piets Pride!
3	Baby Girl	Self	
			I discovered her the morning after my first grandchild was born. First flower of a delightful result from Wittig Pink

4	Pink Puff 	Lizzy 	Pink Puff is another beautiful result out of Wittig Pink. Lizzy is definitely one of the most outstanding pink and greens I have seen to date.
5	Pink Seasons GT 	Lizzy 	Hoping for a full umbel of recurved green throat pinks like Lizzy
6	Pikgroen 	Recuve Hirao 	Breeding for more intense recurring greens
7	Pikgroen 2 	Recurve Hirao 	Breeding for more intense recurring greens
Reds			
8	Puff Daddy 	Ricky's Red 	I bred Puff Daddy out of a beautiful recurring red. Breeding for fixed recurved reds.

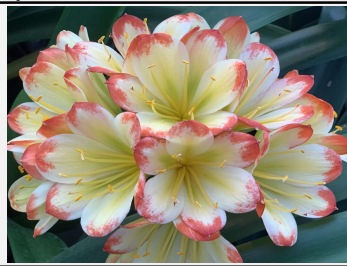

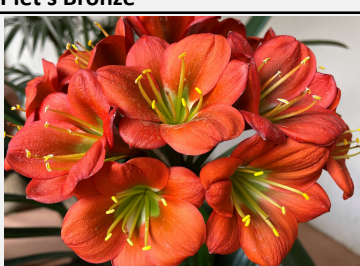

David's Queen Crosses			
9	Donna Cameo	David's Queen	
			Both parents are Cameo offspring.
10	Cameo Daughter 1	David's Queen	
			Both parents are Cameo offspring.
11	Sus Viljoen	David's Queen	
			An outcome of a cross I made between Rorey and Apoline, I named the pod parent after my mom whom we lost to Covid in 2020. Hoping for beautiful recurved pastels from this cross.
12	David's Queen	Self	
			David's Queen (David F1 x Cameo) was one of my favourite flowers in 2021. It first flowered in 2020 as a three year old and just ticks all the boxes.
13	Blushing Princess	David's Queen	
			Pod parent is a cross between Virgin Princess and Blushing Virgin. Combining very famous Clivia families with this cross.

14	Rorey	David's Queen	Rorey is a green throat Chiffon daughter that I have bred beautiful offspring from. David's Queen is a cross between David and Cameo- both famous breeding plants.
			
15	Emily	Rorey	Emily is an improvement on her mother Rorey .This is line breeding in my Gilmore Girls family.
			
Hattoris			
16	Hattori Nijuni	Self	I selected Nijuni from mr Hattoris nursery in Japan.
			
17	Tanchoo 5	Hattori Nijuni	Japanese magic!
			
18	Tangelo Versi	Summer Song	Beautiful oriental genetics combined - Japanese x Chinese
			

Cambridges			
19	Cambridge 2	Cambridge 1	
			The Cambridge family is a cross between New Hope and Mystery Girl. A beautiful family -almost Royal.
20	Cambridge 3	Cambridge 1	
			Very hard to choose between the Cambridges but Cambridge 3 is a very strong beautiful plant that stood out even before flowering and was fast to make an offset .
21	Amsterdam	Cambridge 1	
			Amsterdam is a nice picotee with beautiful orange/red on the back of the petals.
22	Touch of Class	Cambridge 1	
			Touch of Class carries beautiful recurved green throats on a long peduncle. Hoping for the best of both.
23	Saki Beni Greenthroat	Cambridge 1	
			Beautiful Japanese and SA genes combined!

24	Kouhaku	Cambridge 1	The pod parent ia a half Japanese Bicolour from Hattori descent with bright red and white flowers.
			
25	Tangelo	Cambridge 1	Hattori and Cambridge 1 crossed .
			
Chocolate Box Crosses			
26	Godiva	Davids Queen	Godiva, Lindt, Quality St and Marion are ZolXHoly Moly, I call the Chocolate Box. Intense green throats, brown versi and cerise/ purple hues with age. Crossed with DQ should be mind-blowing.
			
27	Quality Street	Godiva	Sibling cross attempting to fix the extraordinary traits inherited from the cross Zol X H Moly. Quality Street has the best quality flowers of the bunch. Colours when mature are magic in QS.
			
28	Soccer Ball Zol	Godiva	Pod parent is Kowe (Gr 2 Yellow) x Zol and had a huge umbel as first flower. Pollinated with Godiva could be very special.
			

29	Dagga Moly	Godiva	Pod parent is a cross between Dagga Cookie (sibling of Zol) and Holy Moly . Godiva is Zol cross Holy Moly
777 Crosses			
30	Naudes 777	777 Serenity	The pod parent is a cross between Naudes Peach and 777. Serenity is one of my favourite 777's These plants are compatible and offspring should produce a lovely head of 777 flowers
31	777 Serenity	Hot 7	Hot 7 is a 777 cross Hot Stuff . Hot Stuff is Andrew Gibson selfed and much improved. This cross could produce very beautiful heads of bigger 777 flowers
32	Hot 7	777 Serenity	Reverse cross of nr 31
33	Royal Green	777 Serenity	Royal Green is a very special green throated Royal Gala and compatible with 777

34	Jap AG	777 Serenity	<p>Jap Ag is an Andrew Gibson x Hattori cross and gives unpigmented seedlings when crossed with Andrew Gibson. It could be compatible with 777 . Experimental but exciting!!</p>
			
35	777 Versi	777 Serenity	<p>Line Breeding to get the best of both. Breeding for big heads of Serenity coloured flowers.</p>
			
Bronzes			
36	Pikkie Bronze	Super Eurobronze	<p>Pikkie Bronze is the brownest Clivia I have ever seen. Photo unfortunately doesn't reflect the true colour. Crossed with SE I expect explosive colour and hope for recurve flowers.</p>
			
37	Pink Bronze	Super Eurobronze	<p>Expecting special colour and hoping for good recurves.</p>
			
38	Piet's Bronze	Super Eurobronze	<p>Expecting beautiful recurving Bronzes.</p>
			

Something Special			
39	Fire Dancer	Lily	
			Experimental but breeding like with like. Could produce something special.
40	Ballet Slippers	Self	
			Ballet Slippers is a very special plant with every second tepal a lovely pointed shape like a ballerina pointing her toes.
41	Pikkies Yellow MT	Hattori Nijuni	
			Hattori Nijuni regularly has 40% Multitepals. I used the pollen from the MT flowers on this perfect 100 % Yellow Multitepal. Experimental
Interspecies			
42	Oriental Express	Self	
			Oriental Express changes colour with age like interspecs mostly do -older and younger umbels seen here next to each other.
43	Green Amethyst	Self	
			Green amethyst was one of the Top Ten in the Clivia Society Virtual Interspec Show in 2021.

44	Tiny Tip	Pastel Bells	
			<p>Tiny Tip has perfect little pink and green Tiperary Peach flowers .Hoping for green throats and to open up the Pastel Bell Flowers .</p>
Ghosts			
45	Star Ghost	Scary Ghost	
			<p>Spectacular red ghosts. Not a good photo of Star Ghost but Scary Ghost really has alarmingly beautiful red and white ghost flowers.</p>
